Terrorism:

The meaning associated with the word 'terrorism' has varied over the years. The word came into popular lexicon through its association with the french revolution of 1789 and the ensuing "regime de la terreur". Terrorism can be defined in many words as there is no valid definition by United Nations till date.

It is defined as premeditated/political motivated violence perpetrated against non combatant target by substantial or sub national groups or clandestine agents.

"Terrorism is the weapon of the weak"

It is also defined as "the unlawful use of force and violence against persons or property to intimidate government. The civilian population or any segment thereof in furtherance of

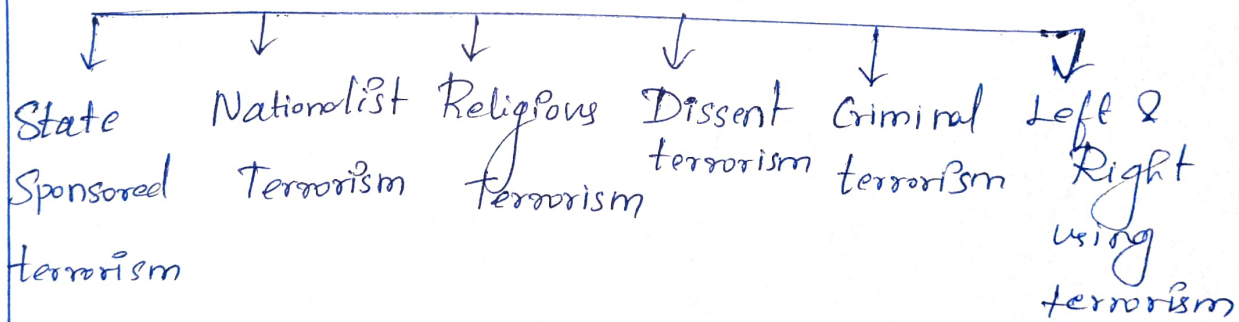

political or social objectives.

Terrorism is also defined as "the international generation of massive fear by human beings for the purpose of securing or maintaining control over other human beings"

"One person's terrorist is another's freedom fighter"

Types: Terrorism may be domestic/International.
