

ARMS CONTROL AND DISARMAMENT

Unit-1

Introduction :

1. Definition of Arms control, Arms Reduction, Arms Limitation & Arms Trade.

"at 1889 in a conference Arms control and Disarmament was Introduced."

Arms control ::

Arms control is nothing but made an agreement for customs

Negotiations to request to reduce the weapons and not to develop it the manufacturing system to be stopped. mainly unconventional weapons.

Disarmament :-

It is a total elimination of weapons from world. its only moto is no countries should have weapons and that be eliminate into 0%.

Arms Limitation :-

An agreement between two or more countries to reduce the number of weapons owned.

Arms Reduction:

Arms control negotiations between the United States & Soviet Union that were aimed to reducing those two countries arsenals of nuclear warheads and of the missiles & bombers capable of delivering such weapons.

Arms Trade:

The arms trade or small arms market includes both authorized transfers of small arms & light weapons. The global markets for any product of the arms industry.

Arms Race

An arms race occurs when two or more countries increase the size & quality of military resources to gain military & political superiority over one another.

Famous four Arms control treaties:

- * Strategic Arms Limitation talks (SALT)
1972
- * Strategic Arms Reduction Treaty (START)
1991 July 31.
- * Threshold Test Ban Treaty (TTBT)
July 3, 1974
- * Treaty on prohibition of Nuclear
weapon July 17, 2017

Arms Control:

Many agreements were bought but those agreement were not followed by Super Power nations. it was applicable to every nations. Nothing but to reduce the Nuclear Weapons, Export & Import from One nation to another & to Stop the manufacturing also. mainly Uranium 235 , & plutonium are the most Important Ingredient to manufacture Nuclear weapon so this should be reduced.
