UNIT -4

POPULATION and SOCIETY ; -

❖ **Society and Population :-**

Population distribution in India Demographic characteristics .

❖ **Family welfare Programmes ,**

❖ **The science of population is also called Demography a fundamental approach to the understating of human society .**

❖ **Births ,Deaths , and Migration , are considered here .it is Sociologically important also To a great extent it is socially determined Population is studied not only with reference to area but also with reference to its characteristics.**

❖ **The birth depends upon the fertility whereas the deaths depend upon mortality.**

- ❖ Thus these three factors i.e Fertility , mortality and Migration influence the number of people in a particular area These factors are to a great extent , society determined and socially determining .
- ❖ All these traits which are selected by the populations are socially important ,
